

SÉMINAIRE D' ANALYSE LIÈGE TRÈVES
SEMINAR ANALYSIS LÜTTICH TRIER

We invite most cordially to the next session of our joint seminar.

Friday, February 9, 2007
11:00 – 12:30 and 14:30 – 16:00
Room 50, Building E
University of Trier

Thomas Kalmes from Trier will speak about

Hypercyclic operators T having non-hypercyclic product $T \times T$.

We report on a variant due to Bayart and Matheron of the recent solution by de la Rosa and Read to one of the central problems about hypercyclic operators.

The campus I of the university is relatively small so that it is not too hard to find the building E of the mathematical department. Parking West is close to it. If you need further information do not hesitate to contact

Leonhard Frerick (Tel.: ++49 651 201 3505, frerick@uni-trier.de) or
Jochen Wengenroth (Tel.: ++32 4366 9391, J.Wengenroth@ulg.ac.be).
