

SÉMINAIRE D' ANALYSE LIÈGE TRÈVES  
SEMINAR ANALYSIS LÜTTICH TRIER

---

We invite most cordially to the next session of our joint seminar.

**Monday, September 16, 2013**

**16:15**

Building E, Room HS 9

University of Trier

Professor **Vyacheslav Zaharyuta** from Istanbul will speak about

**Bernstein and Schwarz inequalities in several complex variables**

My talk will be devoted to multidimensional analogs of the classical Bernstein and Schwarz inequalities for analytic functions and analytic functionals having zeroes or poles of given degrees. Several applications will be considered to analytic functions on Stein manifolds: constructing extendible bases, approximation, interpolation etc.

The campus I of the university is relatively small so that it is not too hard to find the building E of the mathematical department. Parking West is close to it. If you need further information do not hesitate to contact
